now contending is being violated. It is further evident that the employees in submitting this protest to the Board are endeavoring through that medium to have removed from the agreement, or at least made meaningless and worthless, a provision now contained in the agreement which was originally negotiated and placed therein in good faith by the parties thereto. This, we respectfully suggest, the Board is without authority to do. Therefore, it is the position of the carrier that the protest here presented by the employees should be dismissed.

FINDINGS: The Second Division of the Adjustment Board, upon the whole record and all the evidence, finds that:

The carrier or carriers and the employe or employes involved in this dispute are respectively carrier and employe within the meaning of the Railway Labor Act as approved June 21, 1934.

This Division of the Adjustment Board has jurisdiction over the dispute involved herein.

The parties to said dispute were given due notice of hearing thereon.

Rule 20 of the controlling agreement provides:

“Assignment of Work

At outlying points where there is not sufficient work to justify employing a mechanic of each craft, the mechanic or mechanics employed at such points will, so far as capable, perform the work of any craft that may be necessary.

None but mechanics or apprentices regularly employed as such shall do mechanics' work as per special rules of each craft, except Foremen at points where no mechanics are employed.

This rule does not prohibit foremen in the exercise of their duties to perform work.”

The carrier relies on the second and third paragraphs of the rule to support their contention. It was not the purpose of the second paragraph of Rule 20 to permit locomotive department foremen at points where locomotive mechanics are employed, to do mechanics' work on locomotives. The third paragraph of Rule 20 does not support the carrier's position in this case.

AWARD

Claim disposed of in accordance with the above findings.
