NATIONAL RAILROAD ADJUSTMENT BOARD

SECOND DIVISION

The Second Division consisted of the regular members and in addition Referee James P. Carey, Jr. when award was rendered.

PARTIES TO DISPUTE:

**SYSTEM FEDERATION NO. 2, RAILWAY EMPLOYEES'
DEPARTMENT, A. F. of L. - C. I. O. (Carmen)**

MISSOURI PACIFIC RAILROAD COMPANY

DISPUTE: CLAIM OF EMPLOYEES:

1. That under the current agreement Car Oiler C. E. Jones was unjustly dealt with when the Missouri Pacific Railroad Company declined to pay him for service rendered outside of his bulletined hours on November 23, 1956.
2. That accordingly, the Missouri Pacific Railroad Company be ordered to compensate the aforesaid employe for a four (4) hour' call at the pro rata rate.

EMPLOYEES' STATEMENT OF FACTS: Mr. C. E. Jones, hereinafter referred to as the claimant, regularly employed by the Missouri Pacific Railroad Company, hereinafter referred to as the carrier, as a car oiler at Lesperance Street Yards, St. Louis, Missouri, with hours of 4:00 P. M. to 12 Midnight, work week Monday through Friday, rest days Saturday and Sunday.

The carrier summoned the claimant as a witness at an investigation held in the office of the superintendent, beginning at 9:00 A. M., Friday, November 23, 1956. The claimant reported as requested and was required to remain at the investigation from 9:00 A. M. to 10:45 A. M. a total of one hour and forty-five minutes.

The employes herewith submit Exhibit A which is letter dated January 18, 1957, addressed to Local Chairman Carl B. Edwards, signed by general car foreman, Mr. T. A. Cummings, substantiating the fact that the claimant was a carrier witness and requested to attend the investigation on his off hours. The claimant was not being investigated nor did he have a personal interest in the investigation, other than carrying out the instructions of the carrier to appear as a witness for them.

Sometimes the exception proves the rule and we have such an exception on this property. Signalmen are widely scattered over the property. The use of their services often requires considerable traveling contrary to the situation with the shop crafts. In Award 6374 of the Third Division, we find a claim from a signal foreman on this property for 16 hours pay at the punitive rate for giving a deposition on his off day. The rule is quoted in the award which entitled the claimant to 8 hours pay at the straight time rate. The claim was denied and payment under the specific rule approved. The carrier in course of collective bargaining agreed to the rule in view of the working conditions of signalmen. The rule illustrates a type of rule that resulted from collective bargaining in a specific situation. Note that although 16 hours of claimant's time was consumed, he was allowed only 8 hours and that at the straight time rate even though it was a rest day. It is interesting to note that the same referee sat with the Third Division in that dispute as sat with this Division in Docket 2561, Award 2736.

The same considerations would enter into a decision to determine the terms of an implied contract if Judge Swacker's theory were pursued. The facts which we have discussed immediately above are the factors which an equity court would consider. For that reason the carrier emphatically states that the doctrine of implied contract has been improperly applied if this Division should consider the doctrine within its province to apply which the carrier states is not within its province.

To summarize, we have shown that the carrier is entitled to reargue the issues in Award 2736 because of new evidence. We have shown that the agreement is intentionally devoid of a special rule covering the issue in this claim as the result of collective bargaining. We have shown that the claim is not supported by the practice on this property. We have shown that rules cited by the employes have no application to claims of this nature. It follows that this Board has no alternative but to dismiss the claims for lack of any authority upon which it can resolve the dispute.

But if the Board should not deny the claim, then the claim cannot be sustained as presented because the amount requested is unreasonable and excessive for the time and effort expended.

The carrier is firmly convinced that the proper course for this Board is to dismiss the claim because not supported by the rules.

FINDINGS: The Second Division of the Adjustment Board, upon the whole record and all the evidence, finds that:

The carrier or carriers and the employe or employes involved in this dispute are respectively carrier and employe within the meaning of the Railway Labor Act as approved June 21, 1934.

This Division of the Adjustment Board has jurisdiction over the dispute involved herein.

The parties to said dispute were given due notice of hearing thereon.

Disposition of this claim is governed by our findings in Award No. 3484.

AWARD

Claim denied.

DISSENT OF LABOR MEMBERS TO AWARDS 3484 TO 3492, INCLUSIVE

The majority states "We find nothing in the classification of work rules which can be said to afford a reasonable basis for allowing compensation such as is claimed here." Such reasoning, if followed to a logical conclusion, would make it necessary to define even the most minute details involving every type of service to be performed. However, there is no need for specifically defining every possible service to be performed since it is an elementary principle of the law of contract that if the employer calls upon the employe to perform any service the employer thereby creates an obligation to pay for such service if the employe responds. The claimant was called by the carrier to attend an investigation. He responded and unless he is compensated for such service he is being unjustly dealt with. The service performed lies within the scope of the collective agreement and we submit that a reasonable interpretation of Rule 4 requires that claimant be compensated in accordance with its terms.
