PARTIES TO DISPUTE: {  
(Burlington Northern Inc.

STATEMENT OF CLAIM: Claim of the Burlington Northern System Board  
of Adjustment (CL-7363) that the Carrier:

1. Violated the rules of the March 3, 1970 Rules Agreement by dismissing Mr. Walter Merritt, Jr., Clerk, Kansas City, Missouri, from the service of the Railway Company effective November 4, 1970, without giving him the benefit of an investigation or hearing, as required by the Agreement.

2. Shall now reinstate Mr. Walter Merritt, Jr. into the service of the Railway Company with seniority and other rights unimpaired, and payment for all wage loss, commencing November 4, 1970.

OPINION OF BOARD: The record clearly shows that on November 20, 1972 the Organization instituted proceedings in the instant matter before the Special Board of Adjustment established by Appendix "K" of Agreement, and that this was done within the 9 months provided for in Appendix "C" of Agreement, reading in part: "All claims or grievances involved in a decision by the highest designated officer shall be barred unless within 9 months from the date of said officer's decision proceedings are instituted by the employee or his duly authorized representative before the appropriate division of the National Railroad Adjustment Board or a system, group or regional board of adjustment that has been agreed to by the parties hereto as provided in Section 3 Second of the Railway Labor Act." The record presents no procedural issue concerning questions of time limitation, raised by the parties on the property, and it is not for the Board to initiate such a procedural question on its own initiative at the present time, although it continually must exercise responsibility and authority to determine whether it has jurisdiction over a dispute involved in a docket.

On October 8, 1969, Claimant signed his application for employment, which stated in part: "False statement by applicant will justify rejection of this application regardless of when such fact may be discovered." The Carrier removed Claimant from service effective

November 4, 1970 when he was advised that his application of employment was rejected. No hearing or investigation was accorded Claimant. The Carrier advised the Local Chairman on November 16, 1970 that:

At Judo practice while in Vietnam in 1969, he **fell** on his right shoulder and dislocated it. The medical **records** indicate repeated and recurrent dislocations since this **time** in 1969 and of which **Mr. Merritt must** have known. He, however, reports negative to **all** medical questions including request as to when he was last unable to work on account of Injury and explanation thereof.

Since Medical Records show Mr. Merritt falsified his application for employment and withheld medical history, Mr. Merritt's application was not approved and he was removed from service.

The employment application, on page 58 of the record, asks: "When were you last unable to work on account of injury?" and it is answered by Claimant, "No." No mention is made of the dislocated shoulder although there is the question, "Do you now have or have you ever had . . . **Any** other **physical** defects" to which Claimant. replied, "No."

We have reviewed the record moat **carefully** and must conclude that Claimant falsified his employment application.

The Organization contends that the Carrier does not have the unilateral right, consistent with Rules of the Clerks' Agreement, to dismiss an employe without holding a requested investigation. Rules 58, 56, and 4 are relied upon. Rule 58 reads:

An employe who considers himself **otherwise** unjustly treated **shall** have the **same** right of hearing and appeal as provided for by Rule 56....

**Rule 56** reads, in part:

A. An employe who has been in service **more** than sixty (**60**) days or whose application has been formally approved shall not be disciplined or dismissed without investigation, at which **investigation**, the employe if he **desires** to be represented by other than himself, may be accompanied and represented **only** by the duly accredited representative, as that **term** is defined in this agreement....

Rule 4 reads, in part:

Rule 4. **SENIORITY**

A. Seniority of employeea shall date from the first paid performance of service on positions covered by this agreement.

B. **When** new employeea enter service, if their services are satisfactory, and application for permanent employment is not declined within sixty (60) calendar days, their names shall then be listed on the seniority roster with a seniority date as specified in Paragraph A. of this rule. New **employees** whose names have been listed on the seniority roster in accordance with the provisions of this rule will be considered permanently employed, and shall not thereafter be dismissed on account of **unsatisfactory** references, other than as provided by **Rule 56**.

The aforequoted rules apply to an "employee" or to "**employees**". In the instant case, however, rejection by the Carrier of Claimant's **falsified employment application resulted in a** void contract, and, in effect, **Claimant** never **became** an employee of the Carrier. A contract of employment obtained by fraudulent representation is a nullity. Claimant, **accordingly**, is not an "employee" to whoa the aforequoted rules apply. **This is the teaching of case after case** decided by this Board. (First Division Awards: 8302; **12107**; **12159**; 15570; 16239; 16747; 17162; 19954; **21445**. Second **Division**: 5988; 6391; 6530; **6013**; 4359; 1934. **Third Division**: 4328; 4391; 5665; 5994; **11328**; 14274; **10090**; 18103; 18475. Fourth Division: 2286.) In the absence of terminology of "individual" or "person" along with the word "employee" in **Rule 56**, or some other explicit **language** pertaining to falsified employment applications, it must be presumed that the use of the term "**employee**" contemplated the continued application of the clear and unambiguous holdings of this **Board**.

**FINDINGS:** The Third Division of the Adjustment Board, upon the whole record and **all** the evidence, **finds** and holds:

That the parties **waived oral hearing**;

That the Carrier and the **Employees** involved in this dispute are respectively Carrier and **Employees** within the **meaning** of the Railway Labor Act, as approved June **21**, 1934;

LABOR MEMBER'S DISSENT  
TO AWARD 20225 , DOCKET CL-20338

(REFEREE LAZAR)

Award 20225 is palpably in error and requires dissent. To hold that Claimant "never became an employe of the Carrier" is absurd. The use of the terms "employe" and "employees" within Rules 56 and 4 are not to be interpreted as technical "words of art" reflecting the lawyers value judgment but are to be construed in terms descriptive of activities or behavior. The descriptive activities and behavior of Claimant and his employer immediately preceeding Claimant's release from the Carrier's service without hearing or investigation as required by the Rules Agreement clearly demonstrates that Claimant was an employe within the coverage and protection of the Rules Agreement. Moreover, Claimant at all times fell within the definition of "employee" as that term is used in Section 1, Fifth, of the Railway Labor Act.

Award 20225 cites twenty-five awards of all four Divisions of the National Railroad Adjustment Board and improperly concludes that a "contract of employment obtained by fraudulent representation is a nullity". This conclusion omits or ignores two important considerations prevailing in the instant case. First, it has never been established that Claimant secured his contract of employment through fraudulent representations. Secondly, there was never a hearing or investigation held as required under the Rules Agreement at which Claimant could make his case against unsupported allegations. Examination of the twenty-five cited Awards demonstrates that

over four-fifths contained either an **investigation** or a **hearing** on the property before submission to the Adjustment Board and in the few that did not either **special rules** were involved or else there was an unqualified **demonstration** of fraud. **Neither** situation **was** obtained in the instant case.

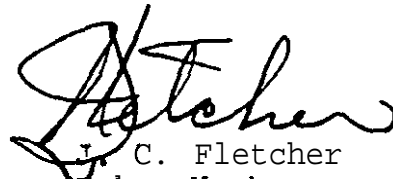

The "**teaching** of case after case decided by this Board" is not that expressed in this Award but rather that expressed in Award 19064 (Cull). Award 19064 held:

"The question for decision is not whether Carrier had a right to **dismiss** Claimant after learning of his falsification but whether he had been in Carrier's employ long enough to have acquired the **protection** afforded by the **Agreement**. Claimant, the record shows was in service 10 months on the date of the **hearing**, March 10. This is a **period** substantially greater than the thirty days needed to receive the **protection** of the **Agreement**. Rule 50 reads as follows, in part:

'(a) An **employee** who has been in the service more than thirty (30) **days** will not be disciplined or dismissed **without** a fair and Impartial hearing he \* \* \*'

Having served the requisite time the **protection** afforded by the **Agreement** was available to Claimant. We find that the statement on the application giving the Carrier the **right** to **discharge** because of falsification does not supersede the collective **Agreement**. If Carrier wanted an **exception** to Rule 50 in cases of falsification it should have sought it through the collective **bargaining process**. We are **persuaded** that the sound cases adhere to this approach for to allow an individual **agreement** to erode the collective **agreement** would leave the process of collective **bargaining** meaningless. O.R.T. v Railway Express Agency, Inc. 321 U. S. 342; Awards 5703, 11958 and 2602 and others."

Award 20225 is palpably wrong and we dissent.
