QUESTION
AT ISSUE:

Is Carrier permitted to abolish a position covered by the Telegraphers' Agreement, and combine the work thereof with another position covered by the same Agreement at another location, without first following the procedure set forth in Article III, Sections 1 and 2 or 3?

OPINION

OF BOARD: This claim is bottomed on Carrier's action in abolishing the Telegrapher position at San Angelo, Texas, and requiring the operator at another position to make physical deliveries of train orders to San Angelo. Such a claim does not raise an issue under the February 7 Agreement. In accordance with Award No. 230, the claim accordingly must be dismissed.
