OPINION

OF BOARD: It is conceded that the Claimants herein are protected employees as defined by Article I, Section 1, of the February 7, 1965 National Agreement. Although they held seniority only on the Mobile Freight Warehouse Group 3 Seniority District and while not required to perform work on other seniority districts, the Carrier permitted them to perform work on other Group 3 seniority districts when work was not available. Of course, when performing work in other Group 3 seniority districts, they received the proper compensation.

The issue posed herein is whether under Article IV, Section 2, the Carrier should have included in the computation of "total compensation and total time paid for during the base period," the earnings paid by the Carrier to these Claimants on other Group 3 seniority districts.

The pertinent portion of Article IV, Section 2, applicable herein, provides as follows:

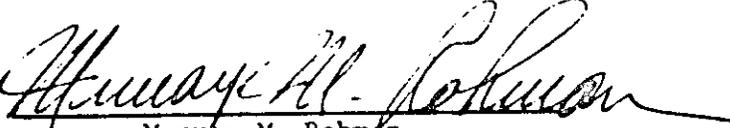

"For purposes of determining whether, or to what extent, such an employee has been placed in a worse position with respect to his compensation, his total compensation and total time paid for during the base period will be separately divided by twelve."

- 2 -

We find nothing in said section which diminishes or modifies in any manner the application herein of the customary meaning of the word "total." Total compensation to us, signifies all compensation and total time paid, which means all time paid for by the Carrier during the base period. Hence, it is our conclusion that the Organization's claim should be sustained.

Award

Answer to Questions 1 and 2 is in the affirmative.
