DISPUTE:

Brotherhood of Locomotive Engineers

STATEMENT OF CLAIM: "Request on behalf of Soo District Engineer G. A. Hardisty for reinstatement to service, payment for all time lost and that his record be cleansed of any reference in connection with his dismissal from service for the alleged failure to stop at the signal indication at the Burlington Northern Interlocking at Minot, North Dakota in violation of Rule 9.1.1 and Rule 9.5 of the GCOR."

FINDINGS: This Board, upon the whole record and all of the evidence, finds that the Employees and Carrier involved in this dispute are respectively Employees and Carrier within the meaning of the Railway Labor Act as amended and that the Board has jurisdiction over the dispute involved herein.

OPINION OF THE BOARD: The evidence supports the serious charge against the Claimant. There is mitigation, however, in the fact there were problems with the Dispatcher's Board even though the signals functioned properly. Mitigation is apparent, too, in the fact that the Conductor was returned to service effective January 1, 1997.

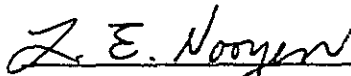

Accordingly, the Board orders the Claimant's reinstatement effective January 1, 1997, and pay for all time lost thereafter.

AWARD

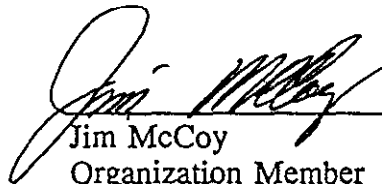

The claim is sustained to the extent indicated above.
