3. As a consequence of the violation referred to in Part (1) hereof, Mr. J. A. OPINION OF BOARD

At the relevant time, Claimant held the position of B&B carpenter. During the latter part of 1982 Claimant was involved in an on-duty accident and sustained an injury to his ankle. Claimant lost some work time but eventually was able to return to duty. After a routine physical on May 11, 1984, Claimant was determined by the Carrier's physician as not medically satisfactory for employment. A specific area of concern to the Carrier was Claimant's ankle problem. Thereafter, Claimant was withheld from service for being medically unfit for duty. Claims were filed by the Organization protesting the withholding from service and the failure to establish a Rule 41 medical board. Those consolidated claims are now before us.

The claims in this matter allege violations of the Agreement commencing in June 1984. However, on November 21, 1986, Claimant signed a release as part of a settlement of a lawsuit which suit alleged that Claimant sustained severe and permanent injuries to his ankle which injuries would cause loss of future earnings. As part of the settlement, Claimant received \$80,000 for injuries arising out of the 1982 accident. Aside from releasing the Carrier from liability arising out of the accident, the release further stated that "I understand this is a final payment and complete release and includes any claim I may have for time lost." On the basis of the record before us, the allegations in this matter are covered by the release and are barred.
