

SPECIAL BOARD OF ADJUSTMENT NO. 285

BROTHERHOOD OF MAINTENANCE OF WAY EMPLOYEES

vs.

READING COMPANY

Award No. 43

Case No. 43

STATEMENT OF CLAIM:

1. The Carrier violated the effective Agreement when during the period of April 10 to April 20, 1961, it assigned a contractor to remove the copper drip pans under Track No. 6 at the Reading Terminal, Philadelphia, Pa.
2. Tinsmiths covered by the Scope of this Agreement be now paid a pro rata share each of a number of hours equivalent to the hours spent by the contractor performing this referred to work.

OPINION OF BOARD:

The record discloses that the removal of copper drip pans on all Reading Terminal tracks, except Track 6, was performed by B&B tinsmiths. The work performed by the outside contractor in removing copper drip pans from Track 6 was identical to the corresponding work done on the other tracks. We conclude that under the controlling Agreement the subject Track 6 work should have been performed by the claimants.

AWARD:

Claim sustained.
