Award No. 3 Case No. 3 ORT Case No. 1783 (TE-8316)

SPECIAL BOARD OF ADJUSTMENT NO. 310

The Order of Railroad Telegraphers

and

The Pennsylvania Railroad Company

STATEMENT OF CLAIM: "Claim of the General Committee of the Order of Railroad Telegraphers on the Chicago Division, that Train Order No. 23 was placed and handled at Dolton Yard at 8:41 A.M. on May 11, 1952 by employes not under the coverage of the Telegraphers' Agreement and further, that an extra or regular Block Operator idle on this date shall be allowed one (1) day's pay for not having been called to perform the work of the Telegraphers' Agreement." (Chicago Division Case No. 111 - System Docket Number 205)

FINDINGS:

Here the Organization notes that Bernice was abolished as an open block station on October 9, 1939 and the interlocking "was handled by C.T.C. or remote control from Maynard Block Station. With the installation of C.T.C. the use of train orders was declared no longer necessary. x x x"

On May 11, 1952 the Conductor of the first trick Dolton Yard Crew, engine 9387, called the operator at Dolton and requested permission to make a move from Dolton Yard to Colehour Junction, which involved movement over the double track main territory to Bernice and over the single main track of the S.C.&S. from Bernice to Colehour Junction, which entire territory is operated under manual block rules. In response to this request, the operator at Dolton gave the conductor verbal permission and block indication to Bernice, and also issued Train Order No. 23 over the telephone to the conductor at Dolton Yard, which the conductor copied, reading as follows:

"C & E 9387 run Extra Bernice to Colehour Jct. No. 304 has ACL Engine 542. No. 216 has Eng. 5678. No. 116 has Engine 5676."

Thus, states the Organization, "the work of the abandoned block station at Bernice was revived and handling of train orders became necessary. This office was not reopened, but the work was handled direct with the train crews from Maynard Block Station, $x \times x''$

"In an effort to avoid liability, "Organization argues, "under the Arbitration Award (153) they (Carrier) now change their practice and have been issuing the same identical orders to the Operator at Dolton Block Station, some three (3) miles from Dolton Yard office, where no Block Station exists. Dolton Yard office is some three (3) miles from Bernice, and Bernice is six (6) miles from Dolton Block Station. At Dolton Yard office the same train crews that would copy orders at Bernice are copying orders for movements from Bernice. Through this devious scheme, Carrier is hoping to avoid the penalty that would accrue if telephoned to Bernice. x x x"

- 2 - Award No. 3
Case No. 3
ORT Case No. 1783 (TE-8316)

Company's position is that under the terms of Arbitration Board Ward No. 153 the claim "is not payable since there never has been a Block Station at the point where conductor copied the train order."

Carrier position is correct. This claim will be denied.

AWARD:

Claim denied.

Signed this 10th day of April, 1961.

DISSENT

No Board of Adjustment has the authority to modify or amend existing rules but that is what we find the end result to be based on the "Findings" and "Award" of the majority. The Third Division ruled in Award No. 5703:

" *** we cannot make a rule nor modify existing rules ***.

Renegotiation thereof in the manner provided by the Railway

Labor Act is the proper source of authority for that purpose."

Arbitration Award No. 153 awarded a train order rule, it did not amend the Scope Rule of the currently effective agreement extant between the parties. Yet here we have the majority making a finding and an award that has gone beyond the Arbitration Award. The majority has here actually modified and amended the Scope Rule.

Arbitration Award No. 153 awarded a rule which would not require Train and Engine Service Employes to copy train orders, except in emergencies, at points where and during the hours when Block or Telegraph or Telephone Operators are scheduled to be on duty, or at block stations which have been closed or abolished since May 1, 1938, or at block limit stations which have been closed or abolished since May 1, 1938 or which may thereafter be established. The Scope Rule of the agreement contains the classifications: "Telegraphers, Telephone Operators (except Telephone Switchboard Operators), Block Operators." The Arbitration Board awarded a train order rule as attested by the following:

"NATIONAL MEDIATION BOARD ARBITRATION BOARD Arbitration Case No. 153 Case No. A-3521

In the Matter Of:

DISPUTE BETWEEN THE PENNSYLVANIA RAILROAD COMPANY AND ITS EMPLOYES REPRESENTED BY THE BROTHERHOOD OF LOCOMOTIVE ENGINEERS, BROTHERHOOD OF LOCOMOTIVE FIREMEN AND ENGINEMEN, BROTHERHOOD OF RAILROAD TRAINMEN, AND THE ORDER OF RAILROAD TELEGRAPHERS.

AWARD OF BOARD OF ARBITRATION

Pursuant to an arbitration agreement entered into by the above named parties on March 28, 1951, in accordance with the provisions of the Railway Labor Act, the Board of Arbitration consisting of Winfield G. Salmonson, Carriernamed member, C. H. Keenan, Employe-named member, and David L. Cole, neutral arbitrator, who was designated Chairman, having duly heard the parties and considered their evidence and arguments, does hereby make its award as follows:

1. It declines to award the rule proposed by the Organization as set forth in Paragraph Fourth of the aforementioned arbitration agreement.

"2. It awards a rule in the language following, to become effective on February 15, 1952, and to continue in effect until it is changed or modified in accordance with the provisions of the Railway Labor Act, as amended:

'Except in emergencies, Train and Engine Service Employes shall not be required to copy train orders at points where, and during the hours when Block or Telegraph or Telephone Operators are scheduled to be on duty, or at block stations which have been closed or abolished since May 1, 1938, or at block limit stations which have been established since May 1, 1938, or which may hereafter be established.

- (1) The emergencies referred to shall include only storms, washouts, tornadoes, obstructions to tracks, slides, accidents, casualties, wrecks, engine or equipment failures, hot boxes, or break-in-two's, provided such cause or causes would result in serious delay and were not anticipated by the train dispatcher when the train was at the last open block or telegraph station.
- (2) At block stations which have been closed on certain tricks or during certain hours continuously since May 1, 1938, the restrictions of this rule shall not apply on such tricks, or during such hours.
- (3) The train orders referred to in this rule are those of the type now designated as Form 19 Train Orders in their various forms, and as illustrated on pages 35 through 42 of the Carrier's Book of Rules, edition of September 25, 1949.
- (4) The restrictions of this rule shall not apply to temporary block stations which have been closed or abolished or which may hereafter be closed or abolished. Temporary block stations as referred to herein, are defined to be block stations opened for a temporary limited purpose only, such as the clearing or repairing of tracks, bridges or other facilities, construction projects, or the movement of some special purpose train or trains.'

BOARD OF ARBITRATION

/s/ David L. Cole, Neutral Arbitrator and Chairman

/s/ Winfield G. Salmonson, Carrier Arbitrator

December 12, 1951

DISSENT BY BOARD MEMBER C. H. KEENAN

I consider the award agreed to by the majority of the members of this Arbitration Board to be very improper and unjust to the involved employes; it seriously discriminates against them, and is not responsive to the evidence of record. Moreover, this award fails to require the correction of practices that violate the inherent fundamental principal of craft rights and representation as contemplated by the Railway Labor Act, as amended.

Therefore, I decline to participate in the rendition of the award.

As may be noted the rule, directed at Train and Engine Service Employes, is that they shall not be required to copy train orders ... at block stations closed or abolished after May 1, 1938, or at block limit stations established after that date except in emergencies. An Understanding, reached in 1938 between the parties, not only embraced the handling of train orders by Train and Engine Service Employes but all other block operator's work at well, such as blocking and reporting trains, handling switches and clearance cards, transmission and receiving messages, and all other related duties assigned and accruing to the block station positions at the time of abolishment. The Arbitration award did not alter or otherwise annul the Scope Rule or the Oral Understanding as to block operator's work being off limits to other employes if the office was one closed after May 1, 1938.

The Arbitration award is supplemental to the Scope Rule and to the Oral Understanding of May 1, 1938, it is not a substitute thereof, hence we here have an erroneous award.
