OPINION

OF BOARD: On January 21, 1965, Claimant's position of Chief Clerk was abolished. Instead of displacing on several available positions occupied by junior employees, he elected to become a furloughed employee. In addition, on February 25, 1965, he wrote a letter to the Carrier, claiming he was unable to displace on several other positions held by junior employees in his seniority district due to his physical condition--a prior back injury sustained in 1958. Thereafter, on October 29, 1965, the position of Chief Clerk was reestablished and assigned to the Claimant.

It appears from the record that a number of positions were available to the Claimant in the exercise of his seniority rights. However, he failed to exercise such rights, as well as limiting himself to positions which, in his opinion, he was qualified to perform.

Under the circumstances prevalent herein, we do not believe the Carrier was obligated to comply with Article IV, Section 1, of the February 7, 1965 Agreement. Furthermore, in our view, SBA No. 605, Award No. 39, is also pertinent herein.
